First announcement

We invite you to the 4th International Workshop on Anthocyanins.

The conference will cover all aspects of the biosynthesis and function of anthocyanins and related compounds (such as proanthocyanidins) in plants, and their applications in agriculture, food products and human health. The meeting is open to all disciplines, from chemistry to biotechnology to medicine. Featured areas will include their relevance to:

- plant stress
- flower and fruit colour
- human health
- wine quality and health attributes
- food colourants and ingredients
- nutraceuticals
- cell culture production systems
- the pastoral sector

Abstracts & publications

Abstracts due 1 October 2005

Abstracts of papers presented orally or as posters will be provided to participants on arrival. For those keen to publish, we plan to bring together papers from the conference in a special edition of an appropriate journal.

About Rotorua

Rotorua is located in the North Island about 230km south of Auckland and is one of the most popular tourist destinations for visitors to New Zealand. Geothermal activity in the area provides many attractions and the district is renowned for its lakes, forests and trout fishing. Rotorua is a centre for Maori culture. Within easy traveling distance are the world famous fishing venue of Lake Taupo, and the spectacular Tongariro and Urewera National Parks.

February is mid-Summer, and Rotorua averages daily maximum temperatures of 20-27C (68-78F).

Accommodation

Accommodation will be available at the conference venue, Royal Lakeside Novotel, or in hotels and motels nearby.

Social Programme

More information on the social programme will be appearing on the website.
